# CHAMPAGNE PIPER-HEIDSIECK

France / Champagne

<http://piper-heidsieck.com/>

The PIPER-HEIDSIECK Maison was founded by Florens-Louis Heidsieck in 1785 and is one of the 10 oldest Maisons de champagne. It has outlived eras and governments, survived wars, dreadful harvests and the vagaries of winemaking, while remaining a family business. This extraordinary resilience, demonstrated for more than 200 years by families with determination, has made it an exceptional Maison.

The PIPER-HEIDSIECK Maison owns precious wine-growing land from the Montagne de Reims to the Côte des Bar. However, the majority of the hundred growths used for the blending of its signature cuvée, a full bodied wine, come from growths carefully chosen from those most representative of the diversity grown in Champagne.

# DOMAINE DANIEL RION

France / Burgundy

<http://www.domaine-daniel-rion.com>

Created in 1955 by Daniel Rion, this family-owned estate began with only two hectares (5 acres) of vines located in the commune of Vosne Romanée, which were left to him by his paternal grandfather. Until 1978, Daniel sold his wine to burgundian negociants. At the end of the Seventies, his sons joined their father, bringing new parcels of vines. A new winery is built, with a larger cellar and a tasting room. At the time, the domaine developed direct sales in the cellar, gaining a great success with private customers. Since 1995, after Daniel retired his sons deal with the vines and the wines.

# DOMAINE ALBERT MOROT

France / Burgundy

In 1820, Albert Morot set up his negociant business in Beaune. Following the phylloxera epidemic, one of his successors bought its first vineyards and built the Chateau de la Creusotte with its cellars. Over the decades the holdings were expanded with particular emphasis on the Premier Crus of Beaune. Between 1984 and 1999, Françoise Choppin, a great-granddaughter of Albert Morot, managed the Domaine. She stopped all negociant

activity in order to concentrate on its vineyards and winemaking.

In 2000 Geoffroy Choppin de Janvry (a great-nephew), who is an agronomist engineer specialised in viticulture and oenology, took over the family estate and is carrying on the family tradition that began five generations ago. His objective is to maintain the traditional spirit of the Domaine while being open to the new techniques that may produce higher quality grapes and wines while maintaining the respect of "terroir". This is a small domaine with just 8 hectares of vines over 8 appellations. The vines have an average age of 40 years and produce grapes and wines that have different characters.

One of the most beautiful villages of the Côte de Beaune, Pernand is also one of the oldest: the ancestors Caletes-Eduens used one of the oldest: the ancestors Caletes-Eduens used to name this place blessed by the Gods by the the term "NAN" which designated a stream. Charles Martel owned vineyards in the region which he passed on to his grand-son Charlemagne. In 1925, Jacques COPEAU, founder of the Theatre du Vieux Colombier

in Paris, settled in the village with his troops and his family, impregnating Pernand with a lively cultural tradition. Enjoy walking on the streets of this village, you will discover the XIIIth century church whose colourful bell tower is recognizable from a distance. Climb to the top of the village and admire from the site of the Oratory of "Our Lady of Good Hope", the vast panorama of the vineyards of the Côte de Beaune.

# DE LADOUCETTE

de Ladoucette

France / Loire Valley

[www.deladoucette.net](http://www.deladoucette.net)

One person has influenced much of the current wine reputation of France's Loire Valley: Patrick de Ladoucette. Having taken over his family's wine operations in 1972 at the young age of twenty, Baron de Ladoucette's energy and vision have helped to elevate the quality and prestige of Pouilly-Fumé, Sancerre and Vouvray, worldwide. The company owns over 200 acres of prime vineyards in these appellations and, in addition, contracts fruit from growers that meet the Baron's strict criteria. This combination helps de Ladoucette meet the great demand for his wines, and makes him one of the most influential winemakers in the Loire Valley. The key to any de Ladoucette wine is quality – in the vineyard, the winery and the bottle.

# CHATEAU DURFORT VIVENS

France / Bordeaux

<http://www.durfort-vivens.fr/en/>

Château DURFORT-VIVENS owes its name to the Durfort de Duras, a powerful family in the South-West of France that came to Margaux in the fourteenth century. In 1824, the Viscount of Vivens' name was added to that of Durfort. The estate was at the height of its fame: the 1844 vintage sold for more than any of the other Second Crus in the Margaux appellation.

The quality of the Durfort wine began to be appreciated at the end of the eighteenth century.

Thomas Jefferson, the American ambassador in France. and future president, was a wine connoisseur and Lafite, Latour and Margaux in his fascinating travel diaries. The 1855 ranked it directly after classification confirmed his opinion, ranking the wine as a Second Cru Classé.

In 1937 the estate was bought by the company owning Château Margaux, whose main shareholder at that time was the Lurton family. In 1961 Lucien Lurton, a great lover and protector of wine-producing terroirs, acquired and restored this exceptional vineyard.

Italy / Piedmont

<http://www.zoninusa.com/estates/castello-del-poggio>

Castello del Poggio is located in Piedmont, one of the most prestigious wine growing regions in the world. The estate, which belonged to the noble Bunéis family, takes its name from the medieval fortress that once protected the border of the city of Asti, one of the most powerful communes in Italy during the middle ages. The northernmost part of the area is called Temple Valley known for the Knights Templar who once protected Castello del Poggio throughout the centuries. In 1985, the Zonin family acquired the estate revitalizing the iconic winery to what it is today.

Italy / Tuscany

<http://www.biondisanti.com>

The prestige of The Greppo dates back to the 19th Century, with the great wine culture of the family that owned this Estate, whose terroir has an extraordinary vocation for Sangiovese. Clemente began making wine using 100% Sangiovese and passed his wine knowledge to his nephew Ferruccio Biondi Santi, who, after the phylloxera came in the second half of '800, isolated a clone of Sangiovese that gave birth to wines of extraordinary longevity. In 1888, Ferruccio produced the first bottle of Brunello di Montalcino.

# DOMINI VENETI

Italy / Veneto

<http://www.cantinanegrar.it/>

Founded in 1933, Cantina Valpolicella Negrar was the first to specialise in the production of Amarone. The oldest known bottle of Amarone della Valpolicella is clearly labelled as from the 1938 vintage and is signed by Cantina Valpolicella Negrar. In 1989 Cantina Valpolicella Negrar started an extensive Quality Project that pinpointed locations particularly suited to vineyards. This in-depth study was conducted alongside wine-growers in order to produce high quality grapes. Over the years their meticulous work has enabled the production of new cru wines and the Domini Veneti label.

# IL MOLINO DI GRACE

Italy / Tuscany

<http://www.ilmolinodigrace.com/>

## IL MOLINO DI GRACE

The winery is named after a 19th century historic windmill located on the property near the cantina. However, the viticultural history of the property is much older: the vineyards at Il Molino di Grace have been fruitful for over 350 years. When Frank Grace first purchased the property in 1995, there was no winery: all the grapes were sold to local producers. Using the site of a ruined barn, Grace, together with winery manager Gerhard Hirmer, designed and built a state of the art winery. The winery opened its doors in 1999 and today, all of our wines are estate produced and bottled using organic materials and sustainable practices in both the vineyard and cantina.

<http://www.luculo.es/>

The name of our winery relates to its allegiance to Lucius Licinius Lucullus, the great gourmet of Classical Rome (1st century BC), lover of arts and hedonism.

The philosophy with which we began this project and which still motivates the creation of our wines is to elaborate wines that convey the originality of the vines grown in the very particular conditions of Baja Montaña, (Below Mountain) influenced by the climate of the Pyrenees, introducing new nuances in the wine making and ageing to enhance the strong personality of the Garnacha grape.

Along with the philosophy of our winery, we got to certify the elaboration process of our wines as ECOLOGICAL, back in 2011. Aiming to keep on guarantying that our wines are elaborated in a 100% natural way, once again, the UE authority of control CPAEN-NNPEK has certified that our ELABORATION PROCESS has been found to be in terms with the requirements of the Reg.

# BODEGAS LOPEZ DE HEREDIA

Spain / Rioja

<http://www.lopezdeheredia.com>

For a hundred and thirty one years, three generations of the López de Heredia family have devoted themselves to producing exceptional and unique wines. Masterpieces which have achieved that which the founder of the company, Rafael López de Heredia y Landeta, defined in the late nineteenth century as the "Supreme Rioja". Around 1877 he began the design and construction of the complex that is today known as the López de Heredia bodega (winery), the oldest in Haro and one of the first three houses in the Rioja region.

# Bodegas Altanza

Spain / Rioja

<http://bodegasaltanza.com>

It was in 1998 that a group of businessmen related to the world of wine decided to create a new winery. This new bodega emerges with the idea of producing quality wines at a reasonable price. At first the bodega is settled to produce reserva wines and gran reserva wines, since reserva is the wine that traditional winemakers used to keep for their best visits.

Located in Fuenmayor Rioja Alta, Bodegas Altanza was built in a 35.000 m2 area leaving 10.000 m2 for a magnificent French garden. Its goal has always been and is to offer quality wine at a reasonable price, combining the best of the tradition inherent to a world renowned wine region with all the possibilities technology offers now: the goal is to make the most of a characteristic grape like the Tempranillo.

# HAART

Germany / Mosel

<https://www.haart.de/#!/en/home>

The Haart family's viticultural tradition has been documented since 1337. The Haarts are probably Piesport's oldest wine-growing family well as one of the oldest private wine estates in the entire Mosel region. Today's Weingut Reinhold Haart stems from these traditional, family beginnings. At present, the VDP estate (member of the Association of German Prädikat Wine Estates, or VDP) numbers among the best in the Mosel region. Karl-Theo Haart has managed the estate since 1971 and has stamped its structure and style ever since. In 2015 his sons Johannes and Marcus Haart took over the family business.

Germany / Pfalz

<http://villawolf.com/>

Founded in 1756, the J.L. Wolf estate was a very successful and highly regarded winery for more than two centuries. It entered an especially glamorous era with the construction of its Italianate estate house and villa in 1843. In the latter years of the 20th century, however, the estate languished, lacking a firm hand to guide its wine production. Ernst Loosen, of the Dr. Loosen estate, took over the vineyards in 1996, launching a dramatic turnaround in the estate's quality and reputation.

Australia / McLaren Vale

<http://www.pertaringa.com.au/>

In 1980, Geoff Hardy left the then family company, Thomas Hardy & Sons, to make his own way in the Australian wine world. The same year, he established Pertaringa and since then the Pertaringa vineyards in the foothills behind McLaren Vale have continued to produce some of the region's finest wines. The soils are enriched from the hills above and the cooler climate, further tempered by the sea breezes off St Vincent's Gulf, sets the scene for high quality wine grapes.

Back in 1986, David and Mark Mason, with friend and winemaker Tony Bish, began with a simple philosophy of making more wine than they could drink, and sharing the rest. They had the perfect place to make it happen, under the shade of Puketapu (sacred hill), along the white, volcanic cliffs and river land gravels of the Dartmoor Valley in Hawke's

Bay. They were precious days by the river with friends, family and food.

Simi's unique vineyards are the genesis of our distinct wines. Our warm Alexander Valley Estate Vineyards are planted primarily to red Bordeaux varietals and are the source of Simi's Cabernet Sauvignon. These vineyards encompass nearly 600 acres and possess some of the most diverse soils of any wine-growing region, resulting from eons of geologic activity including a catastrophic landslide which changed the course of the Russian River. For more than 30 years, La Crema has explored California's coastal appellations, a voyage of varietals that started here at our estate in the foggy vineyards of the Russian River Valley. On our journey, we have found

exciting cool-climate vineyards north in the rugged hills of Mendocino, and south along the wind-swept slopes of Los Carneros. Most recently, our exploration has taken us to the wind-swept hillside vineyards of Monterey. Centered always on the dual lens of Chardonnay and Pinot Noir, we look for one unifying factor at these exceptional sites: coastal wind and fog that allow the grapes ripen slowly on the vine, developing intensely complex aromas and flavors while retaining firm acid structure. Naturally, our winemaking team seeks to express the essence of the terroir in our wines, capturing the unique personality and flavor profile of the vineyards. Elizabeth Grant-Douglas infuses our winemaking regime with a highly personal touch that combines the best of traditional Burgundian winemaking techniques with a contemporary California style.

Every great tradition begins as an innovation. Paraduxx was created to allow the Duckhorn Vineyards' winemakers the freedom to explore other styles without detracting from the winery's focus on Bordeaux varietals. In 1994, Paraduxx sourced 4 tons of Zinfandel from the 100-year-old vines of Napa's Korte Vineyard and

blended it with Duckhorn Vineyards' own estate Cabernet Sauvignon, along with smaller amounts of Merlot and Petite Sirah, creating the first Paraduxx vintage.

## GOLDENEYE

USA / Anderson Valley

Goldeneye Winery was founded in 1996, years before the Pinot Noir boom that has reshaped the landscape of California winemaking. But the genesis for Goldeneye goes back even further. In 1990, after fifteen years of making world-class Bordeaux-varietal wines

Dan and Margaret Duckhorn embraced their

growing love of Pinot Noir. Their vision for Goldeneye was simple, though not easy. They wanted to found a winery that could make a terroir-inspired expression of California Pinot Noir of equal stature to the acclaimed Merlots they had pioneered at Duckhorn Vineyards in Napa Valley. For Pinot Noir, the Duckhorns believed that true greatness would be found on the cool-climate edges of modern California viticulture and found what they were looking for in the Anderson Valley.

USA / Central Coast

Calera is a vision, and Calera’s wines truly express the sense of place. Rather than follow the recommended, Josh Jensen became a pioneer in American Pinot Noir. Taking his cue from the great domaines of Burgundy, which have grown grapes in limestone soil for centuries, he set out in search of the perfect spot in California to create wines unique to the world but in the style of

greatest wines of France. Site selection was vital as he ventured off the grid to plant on the site of an old limekiln in the Gavilan Mountains of California's Central Coast.

# LUIS FELIPE EDWARDS

Chile / Colchagua Valley

[www.lfewines.com](http://www.lfewines.com)

The history of Viña Luis Felipe Edwards LFE dates back to 1976, when Luis Felipe Edwards Sr. purchased the Fundo San José de Puquillay estate, located in the Colchagua Valley, a premier viticultural region in Chile. The estate sits nestled in a secluded horseshoe-shaped valley, separated from the majestic snow-capped Andes by the smaller San Fernando ridge. At that time, it was planted with 60 hectares of vines dating back from the beginning of the 20th century, consisting mainly of Cabernet Sauvignon, Malbec, Carmenere and Merlot. In the early Nineties, Luis Felipe Sr. decided to make wine under his own name and so built a modern winery equipped with the latest state of the art technology. The first vintage, Luis Felipe Edwards Cabernet Sauvignon 1994, was launched on the international market in late 1995 and is still drinking well to this day, a testament to the level of quality of LFE wines since day one.

# BODEGAS SALENTEIN

Argentina / Mendoza

The Salentein estate is as rich in history as in vineyard character. Land now planted to grapes once bore witness to great deeds and heroism. This goodwill was the work of the indigenous people, Jesuit missionaries who came to the region, and important historical figures, such as General San

Martin. Finca San Pablo, one of the Salentein vineyards, has historical roots that reach back to the 17th century. In the past, the property was part of an estancia called De Arriba, which belonged to the Society of Jesus. In the heart of the finca, some 1,500 meters above sea level, lie the ruins of Casa Grande, an old farmhouse. Surrounded by a mature grove, the old house was built by the Jesuits, who had already begun developing viticulture practices at that time. José Galante was one of Argentina's Malbec pioneers. He worked at the renowned Catena Zapata for 34 years before leaving for Bodegas Salentein.
